UGWUANYI ANNASTESIA AMARACHI

Full-Stack Software Engineer | Next.js & React Ecosystem

Email: annastesiaugwuanyi@gmail.com Phone / WhatsApp: +234 814 679 0636 Portfolio: dev-anna-portfolio.vercel.app

GitHub: github.com/dev-anna-life LinkedIn: Annastesia Ugwuanyi Location: Nigeria (Available for Global Remote Roles)

PROFESSIONAL SUMMARY

Full-Stack Software Engineer specializing in Next.js, React, Node.js, PostgreSQL, Prisma ORM, and modern JavaScript architectures. Proven track record of architecting and shipping production-grade commercial web platforms from database design to deployment. Experienced in integrating Paystack payment gateways, building automated intake and tracking portals, and delivering accessible, responsive user interfaces engineered for speed and scalability.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3, SQL

Frontend: React.js, Next.js (App Router & SSR), Tailwind CSS, Responsive Web Design, Component Architecture

Backend & Databases: Node.js, Express, PostgreSQL, Prisma ORM, RESTful API Engineering, Database Schema Design

Integrations & Tools: Paystack Payment Gateway & Webhooks, NextAuth, Nodemailer, Git, GitHub, Vercel, Postman

PROFESSIONAL EXPERIENCE

Full-Stack Software Engineer (Contract / Freelance) **Jan 2024 to Present**

Client Engagements & Commercial Deployments Remote

- Architected, developed, and deployed full-stack client web applications using Next.js, React, Node.js, PostgreSQL, and Prisma ORM.
- Engineered end-to-end commercial workflows, including verified Paystack payment processing, automated intake forms, and real-time application tracking.
- Built scalable database schemas and optimized Prisma ORM queries to support multi-tenant user accounts, referral systems, and dynamic listings.
- Deployed and maintained high-availability web applications on Vercel with zero downtime and automated CI/CD GitHub workflows.

Frontend Developer Trainee **2023 to 2024**

Nanocodes Programming Limited Nsukka, Nigeria

- Completed intensive engineering program covering semantic HTML5, CSS3, modern JavaScript (ES6+), and React component architecture.
- Built and delivered responsive user interfaces for commercial training applications with mobile-first CSS and Tailwind.
- Collaborated across engineering sprints using Git version control, branch management, and GitHub pull requests.

FEATURED PRODUCTION PROJECTS

Eponix Digital | Corporate Compliance & Business Infrastructure **Live Site | GitHub**

Stack: Next.js, TypeScript, PostgreSQL, Prisma ORM, Paystack API, Tailwind CSS

- Engineered full-stack platform for business registrations, trademark filing, and client document processing.
- Integrated Paystack payment gateway with instant transaction verification, eliminating manual invoicing.

- Designed normalized PostgreSQL database schema with Prisma ORM ensuring type-safe application state.

Cassmo Homes | Full-Stack Luxury Real Estate Platform **Live Site | GitHub**

Stack: Next.js, PostgreSQL, Prisma ORM, NextAuth, Tailwind CSS

- Developed dynamic property listing platform with filtered search, user authentication, and referral tracking.
- Architected relational database models with Prisma ORM handling property specifications and broker assignments.

Fashion Store | Dynamic E-Commerce Web Application **Live Site | GitHub**

Stack: React, Node.js REST API, Tailwind CSS, State Management

- Built dynamic e-commerce frontend with persistent client cart state, responsive catalog filters, and fast checkout UX.
- Connected REST API endpoints for real-time inventory retrieval and search indexing.

EDUCATION & VERIFIED CERTIFICATIONS

Frontend Development Mastery Certification (Verified) **Issued Sep 2026**

Techverve Examination Platform Credential ID: B57394AB-5044-4C83-8435-0D1F64C5C510

Frontend Engineering Diploma **2023 to 2024**

Nanocodes Programming Limited Nsukka, Nigeria
